1. The Cooperativa Marina employs about 100 workers engaged in the repair of river barges. No new tools or equipment have been given to the shipyard since 1947. The ship repair yard was established in former barracks near the Violatos Mill, on the quay side of the Danube River.
2. The military barracks in Braila and the barracks located on the road to Lacu Sarat are completely filled. In the yard outside 7 Calarasi Regiment Barracks, informant saw about eight tanks which he believed to be of the T34/85 type. The former stables serve as a garage for an additional ten tanks. From time to time, these tanks are used on maneuvers which take place outside the city in the direction of Baldovenesti.
